

# Meta-G Rated Fixtures with Specified controls

metalumen Green  
metalumen Green

Meta-G is Metalumen's dedication to quality earth-friendly products. This rating system was created to identify and ensure optimum sustainability in the development of Metalumen luminaires. The use of the Meta-G logo identifies highly efficient luminaires that best support ASHRAE's watts per square foot requirements. Fixtures with the Meta-G label have efficiency levels of at least 85%, contain up to 65% postindustrial recycled content, and are packaged using 100% recyclable materials.

R2-1210
