

NOTE: The following instructions provide general guidelines for product installation. For additional information consult the applicable electrical codes or contact factory directly for support before attempting anything with uncertainty.

CAUTION: Do not assemble fixture runs on floor.

WARNING: Risk of fire and electrical shock. **DISCONNECT POWER AT ELECTRICAL PANEL** before installing or servicing this product.

GENERAL SAFETY INSTRUCTIONS:

1. Read all instructions prior to installing this fixture.
2. This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.
3. All wiring must be performed by a qualified electrician in accordance with national and local building and electrical codes.
4. This fixture must be suitably grounded for your protection against shock hazards and to assure proper operation.
5. Make sure that the power source conforms to the requirements of this fixture.

PARTS LIST

MAIN PARTS LIST

- A. Luminaire Enclosure
- B. Top Gasket
- C. End Plate
- D. Lens
- E. End Screw

OTHER PARTS

- Reflector / LED Assembly
- Electrical Switch Box (by others)
- Fasteners (by others)

Important note: See wire entry and mounting location diagram at page 6 of this document.

WIRING DIAGRAMS

STANDARD WIRING

WITH OPTIONAL EMERGENCY PACK

Specifications and design subject to change without notice.

STEP-BY-STEP INSTRUCTIONS

STEP 1. Remove fixture packaging; note marked supply wires coming out at the top of the luminaire.

STEP 2. Remove end screws (E) and end plates (C). Keep all parts.

STEP 3. Remove lens (D) starting at one end. Pull one side first, rotate and detach. Keep lens.

STEP 4. Remove reflector mounting screws and Reflector LED board assembly. Note fixtures with optional emergency pack have a test switch and indicator light mounted on the reflector.

Specifications and design subject to change without notice.

STEP-BY-STEP INSTRUCTIONS

STEP 5. If mounting surface is uneven, apply silicone caulking on the perimeter of all top mounting gaskets (B) to ensure proper water tightness around wire entry and mounting holes.

STEP 6. Perform electrical wiring. Install and secure fixture to mounting surface (fasteners by others). Make sure electrical switch box is completely covered by fixture top gasket. Optional emergency ballast must be fed from the same branch circuit as the AC ballast. Cap off any unused wires.

STEP 7. Re-attach reflector/LED board assembly with (4) mounting screws.

STEP 8. Re-attach lens. Start with one side first and close the other side starting from the corner. Make sure lens gaskets are in place and compressed between lens and fixture housing.

Specifications and design subject to change without notice.

STEP-BY-STEP INSTRUCTIONS

STEP 9. Re-attach end plates with (4) end screws.

STEP 10. Installed fixture.
