

Metalumen
NEW PRODUCT LAUNCH

SEQUENCES6

We are pleased to announce the launch of our brand new Sequence S6 Series. With a luminous opening of 5", this luminaire offers our widest line of light for direct distribution. A groove along the side of the body gives it a visually distinct and clean aesthetic that can complement any interior architectural space.

The S6 is also offered in standard grids made possible by the corner section. It was designed to easily connect to mid units allowing the freedom to create an array of configurations that seamlessly illuminate around 90-degree corners.

When combined with a dimming driver, this highly efficient luminaire is an ideal lighting solution for large open spaces, small intimate offices, and everything in between.

STANDARD FEATURES:

- Pendant, Recessed Drywall and T-Bar (TechZone), and Surface
- White or Satin Aluminum finish
- Quick disconnect wiring for easy maintenance
- Efficacy up to 125 lms/W
