

RAIL 2 ACOUSTIC (LIT)

RM2DU-ACL . LED . PENDANT . DIRECT / INDIRECT

FEATURES

- Optimal direct/indirect lighting partnered with sound absorbing baffle technology by **EZO** BOARD
- Baffle height options of 8", 12" or 16"
- Baffle material is resistant to bacteria and moisture

				Replace "X" with length (inches) selected below. Select Hanger Length and indicate Canopy Finish below															

¹ Battery operates 4ft sections only.

Select Driver:

- ☐ Factory option 0-10V, 1% Dimming
- ☐ **LHE** Lutron H-Series Hi-lume 1% EcoSystem LED Driver
- ☐ **LA2** Lutron A-Series Hi-lume 1% 2-wire LED Driver
- ☐ **L5E** Lutron 5-Series EcoSystem LED Driver

Select Hanger Length:

Total aircraft adjustment range is 6" up & down for each standard length. See detailed hanger diagrams on page 5. All other lengths are considered custom unless otherwise stated.

NOTE: If no selection is made, a 48" hanger will be supplied.

BAFFLE SPECIFICATIONS

Composition: 100% PET (min. 50% recycled content)
Thickness: $\frac{3}{8}$ " (9mm) | ± 0.5 mm
Weight: $\frac{3}{8}$ " (9mm) sheet: 8.4lbs (3.8kg) | $\pm 5\%$
Hardness: 60-65 (Shore C)
Fire Testing:
 • North America:

- ASTM E-84 Class A*- CAN ULC S102-10
 • Europe and UK:
 - EN13501-1: 2007
Acoustics: Refer to ASTM C423-17 test charts for specific absorption coefficients. NRC 0.75 (subject to mounting conditions)
Product Variances: Variation in fiber

mix and colour may occur. All products will be supplied within commercial tolerances.

General: Tackable, impact resistant, bacteria resistant, moisture resistant, installation friendly.

Environment: Made of polyester fiber, min. 50% of which comes from recycled

water bottles which contributes to LEED MR Credit and BREEAM Health and Wellbeing. Materials points due to recycled content, acoustic performance, and low emitting materials.
 No VOC's: CDPH v1.2 and REACH SVHC Compliant.

EZOBORD COMMITMENT TO THE ENVIRONMENT

There are approximately 50 billion water bottles consumed around the world each year, and only about half of those get recycled. The rest end up in landfills, littered through our neighborhoods, or floating in our oceans.

Bottled water consumption has more than doubled since 2000; in 2015 there was the equivalent of more than 5

bottles of water consumed for every person in the USA every single week. This, of course, means that the amount of oil required to produce the energy used for the water bottling process continues to grow.

In 2007, the last year global statistics of oil consumption were available, between 32 million and 54 million barrels of oil were used to produce the

bottled water that was consumed in the USA alone. This energy is used to make the bottles from PET pellets (1 million tons in the USA), treat water, bottle the water, label the bottles, and transport the bottled water.

Most of the energy consumption occurs in the creation of the bottles themselves. To help in the lifecycle of this plastic product, we have chosen to manufacture our material so that

it recycles these PET bottles. We are doing our part to reduce the waste. This acoustical and tackable material is made from PET bottles in a zero-waste process with postindustrial recycling. An environmentally friendly, sustainable, and waste reduced alternative to traditional acoustical/tackable material that looks great in any office, education, or open space installation.

SPECIFICATIONS

Due to the Continuous Improvement Policy at Metalumen, we reserve the right to change our specifications without notice.

Housing: Rigid extruded aluminum body, 2.0mm (0.08") nominal wall thickness. Aluminum end caps.
Optical System: Metalumen luminaires are designed to utilize leading edge LED technology combined with luminaire optimized reflectors and our custom diffusers, resulting in industry leading optical performance.

CRI: 83+ for 3500K, 80 minimum for all CCTs in standard configurations.
Lumen Maintenance: Minimum 50,000h with TM-21 lumen maintenance of 85% @ 25°C ambient temperature (calculated based on IESNA LM-80-08 LED test data). L70: ≥60,000hrs.
Paint Finish: White standard finish. For custom finish, contact factory.

Weight: 0.95 kg/300mm [2.1 lb/ft]
Mounting: Aircraft cable complete with a Quick-Grip field adjustable suspension system.
Electrical: Factory prewired with easy wire quick connect sections.
Drivers: Metalumen offers 0-10V dimming* as a standard on our entire LED product offering. Dimming range is 1%-100%. Power factor is > 90%. Class

2 rating. Drivers are integral.
Approvals: All components are UL/ CSA/QPS recognized or listed. RoHS compliant. This product is cULus listed.
Environment: Suitable for dry or damp locations.
**Standard drivers compatible with passive/ sinking dimmers. Please contact Metalumen if active/sourcing dimmer support is required.*

WARRANTY

Metalumen will warrant defective luminaires for 5 years from date of purchase. Warranty is valid if luminaire is installed and used according to specification. If defective, Metalumen will send replacement boards or drivers at no cost along with detailed replacement instructions and instructions on how to return defective components to Metalumen.

SENSORS AND CONTROLS

Metalumen offers intelligent standalone and/or connected luminaires with various integrated sensing and control system* connectivity options. The table below outlines some of the more common combinations and solutions offered. If you do not see the controls solution or the type of sensing technology you require for your project please contact us and we will work with you to try and identify a solution to meet your needs.

*Control system, installation and commissioning provided by others.

Examples:

WattStopper Daylight Sensor Standalone Luminaire: RM2DU-ACL-35K-12-BWMB-12CG-L31-PA18-1-**DW**-90

Occupancy Sensor with Casambi Wireless Bluetooth Mesh Control Capability: RM2DU-ACL-35K-12-BWMB-12CG-L31-PA18-1-**O-CAB**-90
